Education

Hong Kong Baptist University (HKBU) — Hong Kong
B.Sc. (Hons) in Computer Science ***cGPA: 3.59*** — *Aug 2023 – Expected 2027*

- **Concentration:** Computing and Software Technologies
- **Full Scholarship For Overseas Applicants HK$195,000**
- **Awards:** Oustanding Student Leadership **HK$10000**, Outstanding Student Performance Award **HK$5000**, Undergraduate Scholarship **HK$15000**, Mr. & Mrs. Ho Ting Sik Scholarship for 2024/25 **HK$3000** , Mr Lui Ming Fong Memorial Scholarship **HK$3000**
- **Relevant Coursework:** Design & Analysis of Algorithms, Distributed & Cloud Computing, Calculus, Statistics & Probability, Discrete Math, Linear Algebra, Software Engineering, Software Design, Development & Testing, Cybersecurity & Data Privacy, Mobile Computing & IoT, Mobile User Experience Design

Beijing Normal–Hong Kong Baptist University (BNBU) — Zhuhai, China
Extended Study Programme ***GPA: 3.60*** — *Feb 2025 – Jun 2025*

- **Awards:** HK$18,000
- **Relevant Coursework:** Data Communications & Networking, Data Structures, Database Management Systems, Operating Systems, Calculus

Publications

Muhammad Ahmad Nadeem*, Luka Turmanidze*, **Bhawish Kumar***,Habibul Bashar*, Martin Man Ting Choy, and Kenny Kam Kong Cheng. "Language and Vision-Conditioned Perception and Grounding Across Campus Cameras." *IEEE MetaCom 2026*. **To appear.**

Simon Ho Wang and **Bhawish Kumar**. "Bridging gaps in student engagement: Innovative data governance in Language Centre administration." *Engagement in the Digital Age: International Conference on Language Teaching and Learning*, p. 139, 2024. Conference abstract.

Experience

IPv4 Superhub Limited — Tsim Sha Tsui, Hong Kong
Full Stack Developer Intern — *Jun 2025 – Present*

- Implemented event-driven payment workflows integrating Stripe invoice and WebSocket-based payment-completion updates across backend and customer interfaces.
- Developed multi-factor authentication and role-based authorization, including employee permissions and method-level access controls improving system security by **30%**.
- Addressed duplicate-charge behavior, and refactored authentication and transaction components to separate responsibilities and validate inputs.

Language Centre, Hong Kong Baptist University — Hong Kong
Student Assistant — *Sep 2024 – Jan 2025*

- Organized generative AI workshops for **50+ students** for AI-assisted language learning.
- Collaborated on development of an in-house chatbot serving **100+ users**.

Language Centre, Hong Kong Baptist University — Hong Kong
Software Developer Intern — *Jun 2024 – Aug 2024*

- Debugged full-stack link-shortening application and devised new interface designs in Figma, reducing bugs by **30%**.
- Developed Python scripts to clean, transform, and organize Excel-based academic records, automating repetitive preparation tasks and reducing manual effort in preparing data for subsequent use.

Projects

Vision Language Perception and Grounding Across Campus Cameras | Python, NVIDIA Isaac Sim

- Collaborated on the conversion of everyday language into pinpoint locations and classify the degree of SAR located via reasoning grounded in spatial relations. Preliminary results show **95.6%** accuracy.
- Integrated Qwen-based candidate verification with local and remote inference backends, validated outputs, and deterministic fallback mechanisms.
- Revised person selection to preserve all detected candidates under bounded detail-crop budgets, incorporating soft scene evidence and landmark-based detection refinement

War of the Three Kingdoms Game Engine | Kotlin, Object-Oriented Design

- Designed and implemented object-oriented design patterns using Kotlin to establish game rules & mechanics.
- Created design patterns like Strategy and State, enabling interaction & gameplay strategies within the engine.

Multithreaded Chat Server | C++, Winsock, Python, PyQt5

- Collaborated on multithreaded C++ chat server with XOR-based encryption, supporting real-time & group messaging.
- Designed & Implemented Python GUI client enabling user friendly experience & navigation.

Food Delivery Microservices | Java, Spring Boot, Eureka, Docker

- Microservices-based food delivery system with authentication, order tracking, restaurant management & deployment.

Keystroke Pi | Python, Pygame, Raspberry Pi

- Collaborated on interactive Raspberry Pi installation program that challenges people to identify their own writing among nine lines of locally generated AI text.

Achievements

Top 20 Cyberport CUPP & Best Pitch Award at London School of Economics *June 2026*

- Developed blockchain-based invoice financing, supporting invoice verification, tokenization, and smart-contract integration to connect SMEs with investors.

Young Creative Entrepreneur (YCE) Award *Sept 2026*

- Won prototype funding for ArtDeck Kit, a cyberdeck for interactive media art combining hardware & software.

Merit Award at Samsung Solve for Tomorrow *April 2026*

- Won merit recognition for building a food redistribution platform aligned with UN SDG 2: Zero Hunger.

Activities

HKBU Coding Club *Jul 2025 – Jun 2026*

Founder & President

- Organized **HKBU's first student-led hackathon**, leading a team of **8 executive members** across partnerships, branding, finance, and operations.
- Launched **11 technical workshops** for **100+ participants** from non-technical backgrounds.

Harvard World Model United Nations *Mar 2025*

Delegate, DISEC Committee; Hong Kong Baptist University

- Examined the socio-political challenges of mining practices in the Democratic Republic of Congo and presented technology-related policy solutions.

Skills

Languages & Frameworks: Java, Kotlin, Swift, Python, C/C++, JavaScript, TypeScript, HTML, CSS; Spring Boot, Expo, React.js, React Native, Next.js, Express.js, Tailwind CSS

Developer Tools: Git, Postman, Docker, Linux, AWS, Alibaba Cloud, MySQL, MongoDB, Kubernetes

Natural Languages: English, Urdu, Hindi, Sindhi

Certifications: Master Spring Boot Microservice & Angular K8s CICD AWS; Learning Kubernetes; Spring Cloud: Cloud-Native Architecture and Distributed Systems; Spring Security; OSS Fundamentals; Introduction to C Plus Plus; Using Python to Access Web Data; Python for Everybody Specialization
